

6-8 Distance Learning Students

Dear Middle School Parents,

On August 11th, the middle school will be having meetings with all distance learning students assigned to the middle school. The middle school would like to use the following schedule for all distance learning students to meet at the school to meet teachers and discuss expectations.

6th Grade 9:00

7th Grade 11:00

8th Grade 1:00

The cafeteria will provide enough room for social distancing and will be cleaned between each meeting time. We ask that only one parent accompany each student due to social distancing requirements. Masks will be required for anyone entering the building. Each meeting will last 20-30 minutes. If you have multiple middle school students, please make arrangements to come during the oldest student's time listed.

For example, if you have a 6th grader and an 8th grader, you would come at the assigned 8th-grade time, which is 1:00.

During this time, computers will be assigned, and paperwork and workbooks will be given. If you can not meet at this time, please complete the following Google form to let the middle school know your availability on August 11th.

It is very important that you meet at either one of the meeting times in the cafeteria or a scheduled meeting with your homeroom teacher on this day. This will ensure that your student has all the necessary materials to start the school year.
