

Grades 9-12 Distance Learning

Dear High School Families,

Distance learning students will start school officially on August 11th. On Friday, July 31st, you will be able to pick up Chromebooks from 9:00-2:00 in the cafeteria. You will need to make plans to pick up your Chromebook on this day, as it is the main day for computer pickup and paperwork.

Please check your email regularly. You will receive login information and how to get registered for the PLATO program.

If you did not return your computer from last year, you will not be issued a computer until UCPS Technology checks that computer. An email will be sent to those specific students in Distance Learning that records indicated the computer was not returned. If you want to purchase computer insurance for \$25, it will be available that day to purchase.

The damage matrix will be published on the Union County website <http://www.ucps.org.schools.bz/> to show the repair cost for each Chromebook and pieces of that Chromebook.

If you have any questions about Chromebooks, please contact Matt Barton at bartonm@ucps.org.

Thank you again for all your patience as we trailblaze the distance learning platform together.
